

Developing a Human Impact Preparedness Program

Assessment >

Planning >

Exercising

Human Impact Analysis

- Evaluate present state of readiness
- Review current policies and procedures
- Interviews with management/employees
- Evaluate internal and external resources

Deliverable

- Comprehensive report and presentation to stakeholders outlining strengths, vulnerabilities and recommendations

Human Impact Planning

- Creation of Human Impact Planning Team
- Identification of roles/responsibilities, thresholds and infrastructure of program
- Cross department planning based on assessment results
- Presentation to identified executives
- Review and revise as needed

Deliverable

- Comprehensive document detailing policies and procedures

Tests and Simulations

- Established timelines for exercises, simulations and full scale drills
- Initial exercise for gap identification

Deliverable

- Document outlining a structured protocol and timetable for exercises and simulations
- Post-simulation analysis protocol
